

Toy Design Assessment

Criteria	Score out of 5.
It Works! Toy works how it is meant to. A child would easily be able to understand how the toy is used.	
Meets Purpose Toy meets a need and helps a child to learn and/or experience enjoyment.	
Attractive Toy is extremely well-put together. It looks like a professional and/or manufactured toy, with no obvious weaknesses or mistakes. A child would want to play with this toy.	
Age Appropriate A child who was given this toy in the age range could successfully use this toy.	
Collaborative Thinking I listened to other group members ideas and shared my ideas. Our toy design includes ideas from all group members.	
Team Work I did my share of the workload. I communicated clearly with the other group members. I had a positive attitude and was encouraging towards other group members.
