

How does the height from which a ball is released affect the height to which it bounces?	What brand of paper towel holds the most water?
How does the amount of stretch in a rubber band affect the distance it travels when released?	What type of flowers should I buy mum for mother's day?
Is Lexie the best dog in the world?	Which type of adhesive tape is the stickiest?
What effect does temperature have on broad bean plant growth?	Should I eat a piece of chocolate?

Good scientific question

- ✓ Can be investigated using experiments.
- ✓ Measureable results from experiments.
- ✓ Specific

Not a scientific question

- Vague or unclear
- Based on opinion
- Non-specific, broad, general
